At the Treasury Department.

WASHINGTON, August 5.--Secretary Bristow will arrive here to-morrow, and his coming is looked for with great interest on several accounts. In the first place the difficulty between the First and Second Assistant Secretaries, or rather the embarrassment arising out of the appointment of the Second Assistant to act in the absence of Secretary Bristow. It is thought it will terminate in the resignation of the First Assistant Secretary of the Treasury. The committee, which has just finished the count of the Treasurer's office, also await his return to make their report. They find everything correct except the \$47,000 which is accounted for by the loss of the package some time ago. Fisher Brothers' foundry had the west end blown off, and the roof was carried fifty yards. A two-story brick block just completed, owned by David Scott, was nearly destroyed. The total loss is \$10,000 to \$20,000.

Ship Building.

CHESTER, PA., August 5.--This afternoon, between four and five o'clock, has been fixed for the launch of the new iron sailing ship, City of St. Louis, at the shipyard of John R. Smith. This is the third vessel of the last contract--the predecessors, City of New York and City of San Francisco, being nearly ready for sea. Extensive preparations are in progress for the O'Connell Centennial next Friday, and will make that day the biggest one Dubuque ever saw. The entire city and county will turn out in the procession. The marching band, 100 strong, will add to the number with large delegations. If the weather proves favorable there will be such a crowd as was never before seen in the town. Bishop Hennessey delivers the oration on the occasion on Kelley's Bluff. The trades, manufactures and arts will be represented in the procession.

The Court--Perhaps.

ST. PAUL, MINNESOTA, August 5.--A Commission of railroad experts, consisting of F. R. Delano, C. A. F. Morris, J. S. Sewell and R. W. Bishop, all civil engineers and railroad and bridge-builders, after an examination of the route of the Northern Pacific Railroad bridge at Breithard, have come to an entirely different conclusion from that of the coroner's jury, which, after hearing the evidence of several parties familiar with the bridge, severely condemned the company. The Commission says: We find nothing in the appearance of the bridge, or in the details of its construction, to justify us in attributing the wreck to defective or improper material, or workmanship, or design in the original construction and repairs since it was built. We find each truss yet in place, and in good and safe condition. This truss was constructed at the same time as the others were, and we are informed that it has received the same care and attention from the officers of the road. If we may judge of the conditions of the other trusses from our examination of this one, they could not have been broken by the weight of any ordinary train. While we find ourselves unable to definitely describe the manner of the wreck, we are unanimously of the opinion that it was caused by some accident to one of the flat cars while crossing the bridge, by which a part of the car or a rail became entangled in the truss, thereby displacing some of the timbers nearly or immediately over the channel pier.

The Contract for the Columbus & Toledo Road--Another Ohio-August 4.

WESTERVILLE--Democratic Meeting.

Special to the Star.

COLUMBUS, O., August 5.--The contract for the Columbus & Toledo road was let last night to Benj. E. Smith and nine associates. There were 171 bids.

The contractors get about \$14,000 per mile, taking \$1,000,000 of the company's bonds at eighty-three cents, receiving the balance of their pay in cash. They put down one-half steel and one-half iron rail, sixty pounds to the yard, and all bridges are to be of iron. The company to furnish the right of way, stations and equipment, and the whole cost of the road will be about \$20,000 per mile. It is to be completed November 1, 1878. Col. Orland Smith, of Cincinnati, is one of the contractors.

Another explosion occurred in Corbin's saloon at Westerville, Tuesday night, while a temperance meeting was in progress at the M. E. Church. Some of the temperance people have a theory that Corbin caused the explosion himself, but as yet no clear proof has been advanced on either side of the question. The building was considerably shattered, and it is doubtful whether it can be safely occupied. There is no good clue to the perpetrator. A light was seen in the saloon some time before the explosion.

LIABILITIES, ETC.

LONDON, Aug. 5.--The liabilities of Deacons, Baile & Co., of Leadenhall street, whose failure was reported July 1st, are now stated at \$3,000,000.

At the hearing in the case of the Collier Brothers, Mr. Rainbow, of the firm of Rainbow, Holbertson & Co., testified that a quantity of cotton was bought in 1873 by the Colliers on joint account with the firm. In consequence of a decline in value they never had an opportunity of selling it at a profit.

The Colliers drew bills against the cotton, and Rainbow, Holbertson & Co. indorsed them. The Colliers subsequently sold the cotton and had the bills original drawn against it renewed, after it had passed beyond their control. It was the maturing of these bills that caused the recent disaster. In consequence of the absence of Sergeant Bullantune, leading lawyer for the defense, the further hearing of the case was postponed until Monday next.

Letter from Bracken County.

Correspondence of the Star.

FOSTER, BRACKEN CO., KY., Aug. 3.

ED. STAR: On Saturday last our Grangers gave a picnic near Mr. W. H. London's store, and was quite an enjoyable affair, but was marred somewhat by a shower of rain in the afternoon. Tobacco is looking well, with the exception of some which is beginning to spot. We have had rain almost every day for the past four weeks, which has given the weeds a fine start.

Four-legged chicken thieves are troubling the chickens in this section. All the tobacco in the bottoms was overgrown from the recent rise in the Ohio, and the losses look as though they had passed through a famine.

The election passed off quietly, but we can't decide who were elected yet. The Grangers had a candidate in the field, but we think the Democratic ticket has a majority here.

Bracken has no Bunker Hill monument--too bad! However, she has hills enough, and she can call one that name. Good Templars are flourishing. They don't allow you to smell whisky here.

An Root Under Tenkha.

MT. WASHINGTON, O., Aug. 4, 1875.

ED. STAR: It is conceded on all hands that the east end of the county is en-

sted to a County Commissioner. The important and extensive public improvements now in the process of construction in this part of the county, as well as those that are likely to be made soon, require the personal supervision of an East-end man.

Anderson township has been the banner township of the Democracy from the time immemorial, and I think she should be rewarded with a County Commissioner at the next election, and there is no man in the township better qualified for the place or who would bring more strength to our ticket than Aaron Hoppen, for he would command hundreds of Republican votes. Let us have Aaron Hoppen for County Commissioner.

THE COLORED EDITORS.

Their Session at Union Chapel this Morning.

The Convention was called to order at 10 o'clock. The reading of minutes was dispensed with upon motion, and the convention proceeded to business.

The report of the Committee on Press Association, which had been returned for further consideration, was called for. It was then moved by Mr. Clark that the suggestions contained in the report be considered one by one.

The Hon. Mr. Burck then proceeded to object to the first suggestion. He then proceeded to his cross-examination of the other gentlemen on the press of the city, as well as the able gentleman's views are highly indorsed by himself--it will influence, in a very material way, our journalistic life.

He finally wound up by stamping the writing of the Enquirer article as a slur and a slur on Mr. Shaw, of Memphis, very persistently asked every gentleman from Louisiana to the Convention--if he came to a subscription to oppose every proposition for the furtherance of the Convention.

The discussion was here dropped.

The previous evening being called for, the first suggestion was adopted.

The second suggestion was then called, when another disagreeable discussion ensued.

Mr. Clark administered a very sound rebuke to the Hon. Mr. Burck, saying that he had tried to keep his temper, but he was compelled to say that the gentleman from Louisiana with the most disagreeable man he had ever justly seen.

The second suggestion, upon ballot, was stricken out.

Suggestion third, upon motion, was stricken out.

Suggestion fourth, upon motion of Mr. Planchard, was also stricken out.

The remaining portions of the report were adopted.

It was then moved that official notice be given to all prominent and able editors of colored newspapers of the adoption of this report.

The motion was carried.

Mr. Clark then offered the following: Resolved, That it is the duty of a convention of colored men assembled on the centennial anniversary of the birth of the Liberator of Ireland and friend of humanity, Daniel O'Connell, to recall with gratitude his eloquence and efforts for the freedom of our race, and we gratefully commend his example to his countrymen, as citizens of the United States, who are called upon to do a work of our own, and make the people of America look at it with a new will.

The speaker wanted that everything pertaining to O'Connell should be the work of a negro, and the negro to go to the white man's negro, but as a negro's negro. Mr. Martin moved that the report be read previously before the convention be adopted. Carried.

Hon. Mr. Burck offered the following: Resolved, That the thanks of this convention be returned to the Mayor, citizens, foreign representatives and all who have aided in this Convention for the many courtesies extended to the delegates.

Whereupon the Convention adjourned.
